

WA Bike Month 2024

Grant Guidelines

Please read and consider the information in this grant guidelines document prior to submitting your application for a WA Bike Month grant.

Purpose and background

WA Bike Month 2024 is an initiative of the State Government, co-funded by the Department of Transport (DoT) and the Royal Automobile Club of Western Australia (RAC), and administered by Western Australia's peak body for cycling, WestCycle.

It is WA's annual celebration of bike riding and aims to promote and encourage people of all ages and abilities to ride bikes for transport, fun and a healthier lifestyle.

WA Bike Month is held in October each year and in 2024, a total of \$75,000 in grant funding is available to be split between local governments, workplaces, schools, bike groups and community organisations to host events during the celebration month. DoT contributes \$50,000 annually for grants; RAC is committing \$25,000.

WA Bike Month objectives

All grant applications will be assessed by an industry panel led by WestCycle, in relation to how the proposed event intends to achieve one or more of the following objectives:

- Promote and encourage bike riding for transport, fun and a healthier lifestyle.
- Increase awareness and use of new and existing bike infrastructure, bike routes (i.e. the cycle network) and local facilities you can get to by bike.
- Support local governments, schools, and community groups to develop and implement sustainable activation and riding programs.

A great WA Bike Month event will also:

- promote and celebrate the benefits of bike riding such as physical health, wellbeing and social connection and immersion in the community;
- contemplate a mix of bike and non-bike related activities to encourage participation from the wider community; and
- help people overcome some of the basic barriers to bike riding, such as by offering bicycle mechanics, advice and skills training.
