YES* NO

Does the yard have sufficient lighting when vehicles are stored there? *If yes, provide supporting documents.

YES* NO

APPLICATION GUIDELINES

The CEO will consider the following factors when assessing an application for storage yard approval. Applications will be assessed on a case by case basis and approval is not reliant on all factors being met. Scanned or photographic documents may need to be provided with this application.

ADMINISTRATION

- Is the yard owned or leased by the applicant? If not does the applicant have the authority to use the yard for this purpose?
- Does the applicant have council approval to operate as a storage yard for the secure storage of towed motor vehicles?

FACILITIES

- Is the yard appropriately adapted to the requirements of the tow truck driver or class of tow truck drivers by which it is to be used?
- Does the yard enable storage yard fees to be paid at the premises and a receipt for payment issued?
- Does the yard have a phone number that provides a recorded message outside of business hours that advises the public of the hours and days the storage yard is open?
- Does the yard have signage listing storage and release charges payable that includes information on the ability for a vehicle to be released upon demand without immediate payment?
- Does the yard have facilities in place to safely deliver a vehicle to its owner:
 - on a secure hard standing inside the storage yard; or
 - on a paved area leading from the main entrance of the storage yard to a carriageway adjacent to the storage, or
 - on a carriageway adjacent to the storage yard, not further than 50 metres from a path leading from the carriageway to the main entrance of the storage yard.

ACCESSIBILITY

- Is the storage yard located in Western Australia?
- How far is the yard from locations where towing arrangements are in place?
- Is there signage showing the company/storage yard name that is clearly visible from the street?
- What are the opening hours of the storage yard - is it open to the general public during normal business hours (9am to 5pm Monday to Friday)?
- Is the yard reasonably accessible using public transport or on-demand transport?
- What is the location of the nearest public transport stop?

SECURITY

- Will vehicles being stored be exposed to likely damage or access from unauthorised persons, in considering this point the factors below provide guidance, noting that equivalent levels of security e.g. underground facility with permanent infrastructure controlling entry to, or exit from the facility will also be considered:
 - Is the yard enclosed by a fence or wall that is structurally sound and at least 2m in height from the ground?
 - Does the yard have lockable gates or doors that are closed and securely locked, other than when a motor vehicle is being moved into or out of the area?
 - Does the yard have sufficient lighting when vehicles are stored there?

PERSONAL SAFETY

- Are there any personal safety risks for stored vehicle owners or compliance officers?
- Are there any slips, trips and falls risks present and how are they managed?
