

# Casuarina Boat Harbor (Bunbury)

## Code of Conduct

### Speed limit

A 5 knot speed limit applies in all areas of the harbour.

### Service jetty

Primary use of the Service Jetty is for loading, unloading, fuelling and short term vessel maintenance (unless alternate arrangements agreed with DoT)

- Consideration needs to be given to vessels needing to unload fresh product
- Vessels with a harbour pen or mooring site are not to stay alongside for longer than 30 minutes, otherwise additional fees will apply
- Any other users will be charged according to the Schedule of Fees and Charges
- If equipment is not on site for loading, unloading or gear equipment changes, vessel is to remain in pens or at anchor until everything is in place
- Unless approved by DoT's South West Regional office, vessels are not to be left unattended alongside the Service Jetty and fees will be invoiced accordingly

### Fuelling

- Fuelling operations are restricted to the Service Jetty Fuel Berth and is Diesel only.
- Fuelling from road tankers or drums is prohibited unless fuel supplier is licensed by DoT for that purpose.
- Fuelling of motor vehicles from marine installations is not permitted.

### Bilges and Sullage

- Bilges and Sullage tanks are not to be pumped out within the harbour or surrounding waters.
- Manual bilge pumps are not to be operated in the harbour or surrounding waters.
- Flow through sullage/toilet systems are not to be used within the harbour or surrounding waters.

### Rubbish disposal

All rubbish must be disposed of in the bins provided at the end of "D" and "E" jetties and the professional fisherman's compound.

### Oil disposal

- The oil waste disposal facility is located at the professional fisherman's compound for used oil disposal. A marked drum is also provided for used oil filters.
- All oil drums must be emptied and stacked neatly within the disposal compound.
- **BILGE WATER IS NOT TO BE PLACED IN OIL DISPOSAL TANK**, owner is to dispose of in a responsible manner.

## Dinghy lock-up pen

- A dinghy lock-up pen is located next to the professional fisherman's compound. Dinghies are not permitted to be tied up to the recreational pen jetties or service jetty.
- All dinghy's must be either registered or if used for Tender purposes only, be identifiable with the main vessel registration number on dinghy.

## Electricity supply

- Shore based electricity supply is 240 volts at 50Hz single phase (or 415 volts 3 phase in specific locations) supplied by socket outlets which will accommodate standard Australian plugs.
- Electrical cords used to connect the vessel to the jetty power supply must meet Australian Standards and be inspected and certified (tagged within 1 metre from the jetty outlet ) by a competent and qualified person annually. View the Compliance Information Booklet for more information.

## Gas

Gas fittings must comply with the:

- Gas Standards Act 1972 (WA)
- Gas Standards (Gasfitting and Consumer Gas Installations) Regulations 1999.

Australian Standards relating to gas installation: AS5601 – 2004 All gas bottles must at all times be within their period of validity as stamped on the bottle. View the Compliance Information Booklet for more information.

## Pets

Dogs must be on a lead and controlled by their owners at all times.

## Swimming

Swimming is not permitted in the harbour other than in areas set aside for that purpose or in other circumstances specifically approved by DoT.

## Fish cleaning

Fish cleaning is not permitted in the harbour.

## Courtesy and consideration

The Casuarina Boat Harbour community will extend courtesy and consideration to all users of the harbour.
