ROLL CALL

- State Marine Pollution Coordinator
- Recovery Coordinator
- Management Support
- Maritime Casualty Coordinator
- Environmental Scientific Coordinator
- Local Emergency Coordinator
- Local Emergence Management Representative
- District Emergency Management Representative
- Agency Liaison Officers

The role of the Operational Area Support Group (OASG) is to provide strategic support to an emergency response, when multiple agencies need to be coordinated at a district level or multiple incidents are occurring simultaneously within one operational area. The OASG can assist in the strategic management of the incident(s) through provision of agency specific information, expert advice, resources and support.

Further information on OASG arrangements is outlined in the State Emergency Management Plan
