

Exmouth Harbour Development

Have your say

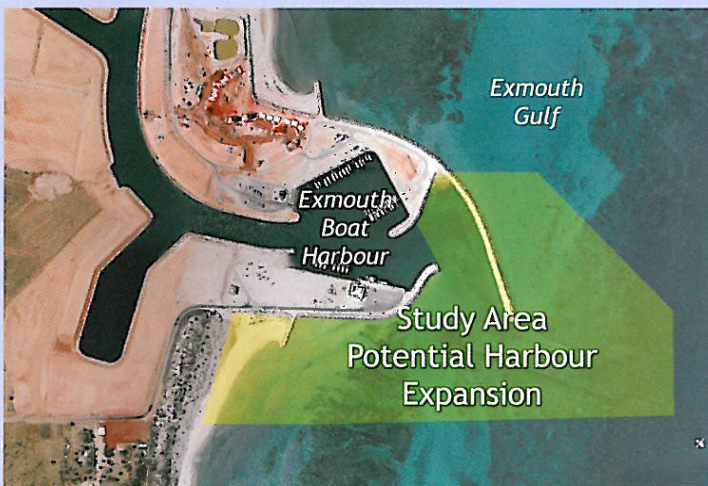

Planning and Infrastructure Minister, Alannah MacTiernan has appointed local member Vincent Catania MP, to chair a committee to examine the potential expansion of Exmouth Harbour and its supporting maritime facilities.

For several years vessel moorings at the Exmouth Boat Harbour have been operating at full capacity and there is growing demand for access to the harbour.

During June 2008, the Department for Planning and Infrastructure will be conducting a series of community based forums to assess the level of support for the development of an expanded facility, and to discuss the types of usage and operating parameters that could apply to this type of facility.

This is an exciting opportunity for Exmouth residents, and anyone with a stake in the future of this vibrant region to have their say. You can register online to attend the community forums or download a feedback form (see details overleaf).

Be part of shaping the future of Exmouth Harbour!

Register your interest for ongoing involvement

To participate in the community consultation process and be kept informed of developments, please register by either:

- Telephoning the Project Team on 08 9216 8868 or 08 9216 8928
- Emailing exmouthharbour@dpi.wa.gov.au
- Posting your details to:
Exmouth Harbour Project Team, PO BOX 402,
