Fremantle Traffic Bridge Closure - South Walking and Bike Riding Information

---

Helping you get around

More people are choosing to walk, wheel and ride to get around Fremantle. Replacing short car trips with active travel helps you connect with your community and is also great for your health and the environment.

This map identifies walking and bike friendly routes, quiet streets, on-road bicycle lanes and shared paths to help you plan your journey.

Think about the local trips you make such as going to the shops, dropping the kids at school or visiting friends. Which could you do by walking, wheeling or riding?

Catch a bus or train as part of your journey

Use this map to see if you can walk, wheel or ride to the train station or bus stop.

Plan your journey by visiting transperth.wa.gov.au, on the Transperth app or by calling the InfoLine on 13 62 13.

Lock up your bike

You can park your bike at train stations for free and lock it up in the secure bike shelters identified on the map.

eRideables

Know the rules to keep everyone safe. eRideables must travel 10 km/h or less on footpaths and 25 km/h or less on shared paths.
For more information scan the QR code or visit wa.gov.au/organisation/road-safety-commission/erideables

Tips for sharing the path

Slow down and be courteous, especially with people moving slower than you

Thanks for ringing your bell to let others know that you're approaching

Make sure you and your family wear a helmet to keep safe

It is legal to ride bikes on footpaths in Western Australia

Stay alert, keep your eyes off the phone and on the path ahead
